

TimeWorksTUFF™

Built for hard work! Interactive touchscreen clock with fingerprint reader in a heavy-duty case.

TimeWorksTUFF includes all the features of TimeWorksTouch in an industrial-style case geared for sites that are not your typical clean and protected offices. Get the same great punch features backed by the leading cloud-based timekeeping service but in a dust/shock/water-resistant shell.

Timekeeping On-the-Go

Mobile or Remote

Carry TimeWorksTUFF with you from job site to job site or locate it on the factory floor. A DC power adapter lets you collect punches without plugging it in. TimeWorksTUFF can even collect and store punches while offline and upload them when you are reconnected to the network.

Outdoor and Industrial Use

TimeWorksTUFF is perfect for trades and industries where environmental conditions aren't ideal. Connect via Wi-Fi or hotspot. Fields of use include these and more:

- Construction
- Manufacturing
- Mining
- Landscaping
- Security Services
- Agriculture
- Maintenance

Specifications

- Industrial-style soft case
- Screen protector
- 7-inch, color LCD touchscreen
