# WebClock

WebClock offers the ease of clocking in and out through a standard web browser. With no software to install and no hardware to maintain, tracking your employees' punches in real-time has never been more simple.

WebClock also enables employees to check their time card and/or schedule over the web. Supervisors benefit from the convenience of online access for editing employee time cards from any web-enabled workstation.

Features

- Clock IN/OUT anywhere
- Mobile friendly
- No hardware to setup/install
- Enter shift-related information

- Job codes, mileage
- Clock prompts
- Collect tip entry

Employees are able to clock in and out through any standard web browser to record punch times from any authorized computer or mobile device.

Solution

WebClock is ideal for organizations desiring employees to clock in through a web-browser from their workstation or a designated computer within the building. A typical environment for WebClock is an office setting or workspace where employees have access to a computer with Internet access.
